

Bay Point Sewer Repairs Project

January - April 2016

Delta Diablo is your wastewater resource recovery service provider. We will soon commence work to improve sewer system performance and ensure continuous sewer service to residences and businesses in your area. Rehabilitation of sewer pipelines is a priority for Delta Diablo to address structural defects, which may impact future reliability.

What's Being Done?

Sewer lines on your street need to be repaired to fix protruding service laterals, cracks, fractures, sags or offset joints. These repairs are important to ensure reliable service 24 hours a day, 365 days a year.

Bay Point sewer line repairs are being undertaken ahead of work by Contra Costa County in Spring/Summer 2016 which will include installing curb ramps along Pacifica Ave and Marina Rd as well as road resurfacing (cape seal).

Locations

This notification is being mailed to residents adjacent to Project work areas. The Project will include work in the following streets:

Anchor Drive	Marina Drive
Bay Drive	Oceanview Road
Beach Drive	Peninsula Road
Breaker Drive	Potview Drive
Canal Drive	Sandview Drive
Delta Drive	Seaview Drive
Harbor Drive	Shoal Drive
Inlet Drive	Shore Road
Island View Drive	Skipper Road
Lake View Drive	(at Anchor Drive)
Levee Road	Wharf Drive
	(at Levee Road)

Questions or Concerns

Contact Delta Diablo Project Manager Patricia Chapman with any questions or concerns about this project at: (925) 756-1977 or PatriciaC@deltadiablo.org

What to Expect

During construction hours:

- * Access to private driveways will be maintained
- * Emergency vehicle access will be maintained
- * No full street closures - some traffic may be delayed
- * "No Parking" signs to be posted at least 3 days in advance
- * All usual parking restrictions will still be in effect during construction.

Your sewer service may be temporarily interrupted if work is to be performed on the sewer lateral pipe connection that serves your property. Our contractor will notify you in advance so you can plan accordingly. Sewer service typically will then be restored to your property within several hours.

Timeline

Construction repairs are expected to begin in January 2016 and take approximately four months, depending on weather, and be completed in April 2016. Construction on your street will not extend for this entire period.

Standard work hours are 7:30 a.m. - 5:00 p.m., Monday through Friday.

If there is construction work immediately in front of your home or business, you will also receive a notification from our construction contractor approximately one week prior to the start of work.
