

THE TOILET IS NOT A TRASH CAN!

Only human waste and toilet paper should be flushed.

Whatever ends up in your toilet could damage your plumbing, your local wastewater treatment plant and the environment. Even items labeled “flushable” should not be flushed, because they are not biodegradable. Pharmaceuticals should never be flushed.

FOR MORE INFORMATION, VISIT WWW.DELTADIABLO.ORG.
PROUDLY SERVING THE COMMUNITIES OF ANTIOCH, BAY POINT AND PITTSBURG.
