

Street Sweeping

Antioch, Bay Point and Pittsburg

An important pollution prevention service

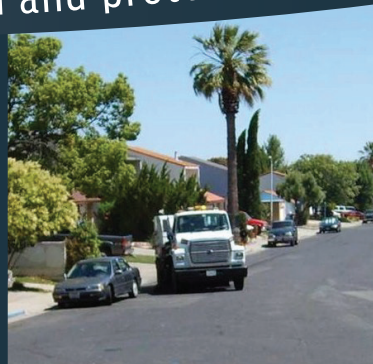

Help us keep your street clean and protect your local waterways.

Move vehicles off the street and into your driveway or garage on your designated sweep day.

Properly dispose of trash. This includes pet waste and cigarette butts. Litter travels!

Keep tree branches, plants, basketball hoops and other obstructions clear of gutter.

Leaves create flooding problems. Do not create piles of leaves in storm drain or gutters in your street.

Required under state and federal Clean Water Act laws, Street sweeping is one of the best ways to prevent trash, debris and pollutants* from travelling untreated into local waterways and the Bay-Delta. Street sweeping is particularly important during the winter months when heavy rains can result in debris blocking storm water facilities and causing local flooding.

* The street sweeper cannot pick up trash, glass, pebbles, weeds, or large piles of leaves.

Find out which days the street sweeper visits your street at www.deltadiablo.org/residents
